Personal Bank Statements: 100% of Deposits Add all deposits for all 12 months and divide that amount by 12 to receive the monthly income amount we will apply as the borrower's qualifying income.

Ex. 12 months deposits total = \$100,000 / 12 = \$8,333 a month income.

Business Bank Statements: 50% of Deposits

Add all deposits for all 12 months, divide by 2, and then divide by 12 to receive the monthly income amount we will allow for the borrower.

Ex. 12 months deposit total = \$500,000 / 2 = \$250,000 / 12 = \$20,333 per month income. Only 50% is used because we have to assume the business has overhead.
